SPONSORS AND EXHIBITORS' MANUAL

REGISTRATION OPENING: Monday 13th June 2022

Welcome message

IPAC is the main annual event for the worldwide accelerator community, including scientists, engineers and industry, with presentations of the latest results from accelerator R&D and on the progress in existing, planned and future accelerator facilities.

IPAC'23 represents a dynamic forum to create a network of international leaders in accelerator science, coming from primary national and international accelerator facilities and institutions. Over 1200 attendees are expected in Venice, representing a top experience for sponsoring partners to showcase their innovative products and to promote their brand to the accelerator community.

Istituto Nazionale di Fisica Nucleare (INFN) and Elettra Sincrotrone Trieste (Elettra) are the hosting institutions of the 2023 edition. Both Institutions have a long-term tradition in the design, construction, and operation of various kinds of particle accelerators.

The Conference will be held from 7 to 12 May 2023 in Venice, on Lido di Venezia, the site hosting the world renown annual Film Festival. Palazzo del Cinema and Palazzo del Casinò offer an elegant and unique frame to the exhibition spaces, which will be located in both buildings. Booths will be built in the same area of poster sessions, catering services and on the main routes to conference rooms. Visibility will be thus granted to all exhibitors, who will be able to maximise interaction and contacts with delegates.

Let's start meeting again! Let's meet in Venice!
